

# EFINANCIALS: A FINANCE NEWS PORTAL

Name:

Past Experience:

Qualification:

Career Summary:

- C#
- SDLC
- ASP.NET
- MsSQL
- Dockers
- K8s

**Some clients of Cebuana Lhuillier aren't in-tune with the latest news and updates regarding money matters inside and outside of Cebuana and most of the products and services offered by the company revolves around financials.**

**This made us realized the importance of having a dedicated news portal that can serve not just anyone who will visit the website but most specially, a news portal that will cater all its client's questions about finance related news and updates through provided news articles by the website and articles made from collaborating website users.**

**We tried searching all of the company's offered products and services. Based from our listings, we associated a topic where each products and services would fit into if it was a news article. We then concluded final topics about finances that will be shown in our website.**

**From thereon, we further clarified the scope of our website and how we could make it both more engaging and beneficial both for our users and for the company.**
